

Team Contributions: Final Physiotherapy Companion

Team 11, technically functional
Matthew Huynh
Cieran Diebolt
Vaisnavi Shanthamoorthy
Maham Siddiqui
Eman Ashraf

This document summarizes the contributions of each team member for the final demonstration and documentation. The time period of interest is the time between Rev 0 and the Final documentation; the contributions prior to Rev0 are NOT included.

1 Team Meeting Attendance

Student	Meetings
Total	4
Matthew	4
Vaisnavi	4
Cieran	4
Maham	4
Eman	2

2 Supervisor/Stakeholder Meeting Attendance

Supervisor's Name: Kevin Yu and Luke Ngyuen

Student	Meetings
Total	0
Matthew	0
Vaisnavi	0
Cieran	0
Maham	0
Eman	0

We had met with Kevin and Luke after Rev0 but they were for usability testing where not all of us could attend those sessions. Those were recorded and shared within the team to put within the usability report.

3 Lecture Attendance

Student	Lectures
Total	1
Matthew	1
Vaisnavi	1
Cieran	0
Maham	1
Eman	0

4 TA Document Discussion Attendance

TA's Name: Rashad Bhuiyan

Student	Lectures
Total	1
Matthew	1
Vaisnavi	1
Cieran	1
Maham	1
Eman	1

5 Commits

Student	Commits	Percent
Total	199	100%
Matthew	27	13.57%
Vaisnavi	77	38.70%
Cieran	16	8.04%
Maham	73	36.68%
Eman	6	3.02%

6 Issue Tracker

Student	Authored (O+C)	Assigned (C only)
Matthew	15	3
Vaisnavi	5	8
Cieran	2	1
Maham	22	0
Eman	0	0

7 Team Charter Trigger Items

- Missing 3 consecutive meetings when deliverables are not the main discussion topic triggers a team meeting
- Missing 2 consecutive meetings when deliverables are the main topic triggers a team meeting
- Deliverables must be finalized 2 days prior to the deadline (internal deadline)

7.1 Violations

No violations have been recorded at this time.

7.2 Plan to Address Violations

If triggers are violated, the team will:

1. Hold a team meeting to discuss the attendance or deadline issues.
2. Review the circumstances with the member involved.

3. For extended emergencies (>2 weeks), bring the matter to teaching staff to ensure workload remains manageable for the team.
4. If triggers are found to be too weak, strong, or ambiguous, they will be revised through the team's decision-making process (this will be done through a unanimous vote or majority vote with all members heard).

8 Additional Productivity Metrics

Duration between pull requests: Over the course of the project, our team learned that more frequent pull requests would be beneficial to the workflow. Frequent merges will ensure minimal merge conflicts towards the end of the deliverable and guarantee that any output is up-to-date. Merge conflicts are time-consuming and troublesome to handle, and implementing this strategy will result in an overall improvement in the quality of our work.
